

Which System is Right for you?

Welcome 21st is a full property management system for hotels of 20 bedrooms upwards. Welcome Anywhere has been developed specifically for smaller establishments such as B&Bs and Guesthouses. To find out which one best suits your operation, take a look at the (non-exhaustive) list of key features below.

Welcome 21st Property Management System

Welcome Anywhere for B&Bs, Guesthouses and Small Hotels

Please visit www.welcome-computers.co.uk
For more information on both systems

"Welcome have offered us an outstandingly personable service right from the start, some six years. We are yet to find a limit to what they can do and nothing is ever too much trouble."

"Constantly tailoring each of their products to suit our ever changing requirements; Welcome work alongside us as we move forward."

"Having used other hotel management systems previously I would highly recommend Welcome, you simply cannot beat the overwhelming benefits found from both the team and user friendly products alike."
